Strong fee and trading income growth across all regions delivered an increase of 11.6% to Net Operating Income (NOI) in the half year ended 30 September 2018. This growth was driven by an 11% increase in transactions and an 18% increase in turnover. Our active clients are dealing more regularly with transactions per active client up 13% on an annualised basis. NOI margins were stable at 56 basis points excluding International Payment Services. The Group delivered on active client growth in North America, Asia and Corporate however, there was an overall decrease of 0.8% in active clients during the 12 months to 30 September 2018. The Group is focused on executing its capital expenditure program to deliver enhanced customer experience and grow active clients.

¹ All dividends are fully franked based on the Australian corporate tax rate of 30%.

² Net Operating Income is the combination of interest income and net income.

³ The Group actively uses its cash balances as part of its hedging strategy, making the interest income integral to its earnings. For this reason, the Group regularly uses EBITDA (earnings before interest expense, taxation, depreciation and amortisation) as a measure of performance. EBITDA is a non-IFRS unaudited measure.

Directors' Report (continued)

Operating and financial review (continued)

The Group has invested in technology to deliver a better client experience with changes to our website, mobile applications and the release of our Global Currency Account all implemented during the half. Also, to drive growth we have invested in additional resources and promotional activity in North America and Asia. Due to this investment in growth regions, EBITDA is up 8.2%. The Group remains committed to achieving annual positive operating leverage on an EBITDA basis excluding the non-recurring operating expenses for corporate actions.

Australia and New Zealand continue to be the highest contributor to fee and trading income. In the half, fee and trading revenue in this region grew by 11%, delivering on a commitment to reactivate the Australian business.

We also continued to see a return to growth for our European business with fee and trading revenue up 13% driven by strong performance in the Corporate book. During the period, an e-money licence was obtained in the UK allowing the Group to hold customer funds and launch the Global Currency Account in the UK.

The Group continues to see significant growth in our North American business. Fee and trading revenue increased 18% in the half driven by continued investment in additional resources and promotional activity. This investment led to an EBITDA loss of \$(0.2) million (\$0.7 million in the previous corresponding period).

Fee and trading revenue in Asia increased 29% in the half. The Group commenced operations in our Singapore office on 1 April 2018 and invested additional resources and promotional activity to drive growth in this region.

A reconciliation of EBITDA to Net Profit After Tax (NPAT) is provided as follows:

	Half year 30 September 2018 \$'000	Half year 31 March 2018 \$'000	Half year 30 September 2017 \$'000
EBITDA	14,472	16,448	13,377

Note 1. Basis of preparation

This condensed consolidated interim financial report for the half year ended 30 September 2018 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This condensed consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 31 March 2018 and any public announcements made by OFX Group Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new and amended standards as set out below.

New and amended standards adopted by the Group

A number of new or amended standards became applicable for the current reporting period:

- AASB 9 *Financial Instruments*
- AASB 15 *Revenue from Contracts with Customers*

The Group adopted AASB 9 and AASB 15 at 1 April 2018. AASB 9 addresses the classification, measurement and derecognition of financial assets and financial liabilities. AASB 15 contains a single model that applies to contracts with customers and two approaches to recognising revenue: at a point in time or over time.

(a) AASB 9 Financial Instruments

The requirements of AASB 9 represent a significant change from AASB 139 *Financial Instruments: Recognition and Measurement*. The nature and effects of the key changes to the Group's accounting policies resulting from the adoption of AASB 9 are summarised below.

(i) Classification and measurement of financial assets and financial liabilities

On 1 April 2018 (the date of initial application of AASB 9), management has assessed which business models apply to the financial assets held by the group and the contractual terms of the cash flows and has classified its financial instruments into the appropriate AASB 9 categories. The adoption of AASB 9 has not impacted the carrying value or classification of financial assets.

Derivative financial instrument assets and liabilities are classified and measured at fair value through profit and loss. AASB 9 requires that all other financial liabilities be subsequently classified at amortised cost, and there is consequently no change to the classification of the Group's payables on adoption of AASB 9.

(ii) Impairment of financial assets

AASB 9 replaces the 'incurred loss' model in AASB 139 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at fair value through other comprehensive income (FVOCI), but not to investments in equity instruments. Under AASB 9, credit losses are recognised earlier than under AASB 139. The Group has assessed the impact of the adoption of an ECL model under AASB 9 and no adjustments were required to be recognised.

(iii) Derivatives and hedge accounting

The Group elected to adopt the new general hedge accounting model in AASB 9 effective 1 April 2018. There has been no impact with the adoption of AASB 9 on the Group's derivatives and hedge accounting. The Group's risk management strategies and hedge documentation are aligned with the requirements of AASB 9 and therefore hedging relationships are treated as continuing.

Financial assets at amortised cost

Other receivables

Other receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method less any allowance under the ECL model.

Recoverability of other receivables

At each reporting date, the Group assesses whether financial assets carried at amortised cost are 'credit-impaired'. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. The Group recognises loss allowances at an amount equal to lifetime ECL on other receivables. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of the receivable and are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). The Group analyses the age of outstanding receivable balances and applies historical default percentages as a means to estimate lifetime ECL. Debts that are known to be uncollectable are written off when identified.

Note 1. Basis of preparation (continued)

Hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as hedges of net investments in foreign operations are recorded in OCI, together with the translation gains and losses on the hedged net investment. The accumulated gains and losses in OCI are reclassified to income on disposal or partial disposal of the foreign operation. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss.

(b) AASB 15 Revenue from Contracts with Customers

The requirements of AASB 15 replace AASB 118 *Revenue* and AASB 111 *Construction Contracts*. AASB 15 is based on the principle that revenue is recognised when control of a good or service is transferred to a customer. It contains a single model that applies to contracts with customers and two approaches to recognising revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much, and when revenue is recognised. It applies to all contracts with customers except leases, financial instruments and insurance contracts. It requires reporting entities to provide users of financial statements with more informative and relevant disclosures.

Classification and measurement of revenue

Revenue is recognised over time if:

- the customer simultaneously receives and consumes the benefits as the entity performs;
- the customer controls the asset as the entity creates or enhances it; or
- the seller's performance does not create an asset for which the seller has an alternative use and there is a right to payment for performance to date.

Where the above criteria is not met, revenue is recognised at a point in time.

From management's assessment of when performance obligations are satisfied, there is no change in the timing of revenue recognition when comparing the previous accounting policies to those now under AASB 15:

Type of revenue	Revenue recognition policy prior to 1 April 2018	Revenue recognition policy under AASB 15
Fee income	Recognised under AASB 118 as fee income, which is charged on low-value transactions, when the deal is settled.	Recognised at a point in time when the deal is settled and the performance obligation is thereby satisfied.
Trading income	Recognised under AASB 139 <i>Financial Instruments: Recognition and Measurement</i> as trading income at each reporting date, representing foreign currency transaction margins and changes in exchange rates between the time when a client rate is agreed and a subsequent hedge transaction is entered into by the Group.	AASB 15 does not apply to financial instruments and other contractual rights or obligations which are within the scope of AASB 9 <i>Financial Instruments</i> .
Interest	Recognised under AASB 139 using the effective interest method.	AASB 15 does not apply to financial instruments and other contractual rights or obligations which are within the scope of AASB 9 <i>Financial Instruments</i> .
Other income	Recognised on an accruals basis based on the contract terms.	Recognised over time as the benefit is obtained.

Compliance with IFRS as issued by the IASB

Compliance with Australian Accounting Standards ensures that the financial report complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). Consequently, this financial report has also been prepared in accordance with and complies with IFRS as issued by the IASB.

Note 2. Segment information

The operating segments presented below reflect how senior management and the Board of Directors (the chief operating decision makers) allocate resources to the segments and review their performance.

The chief operating decision makers examine the performance both from a product and geographic perspective and have identified five reportable segments.

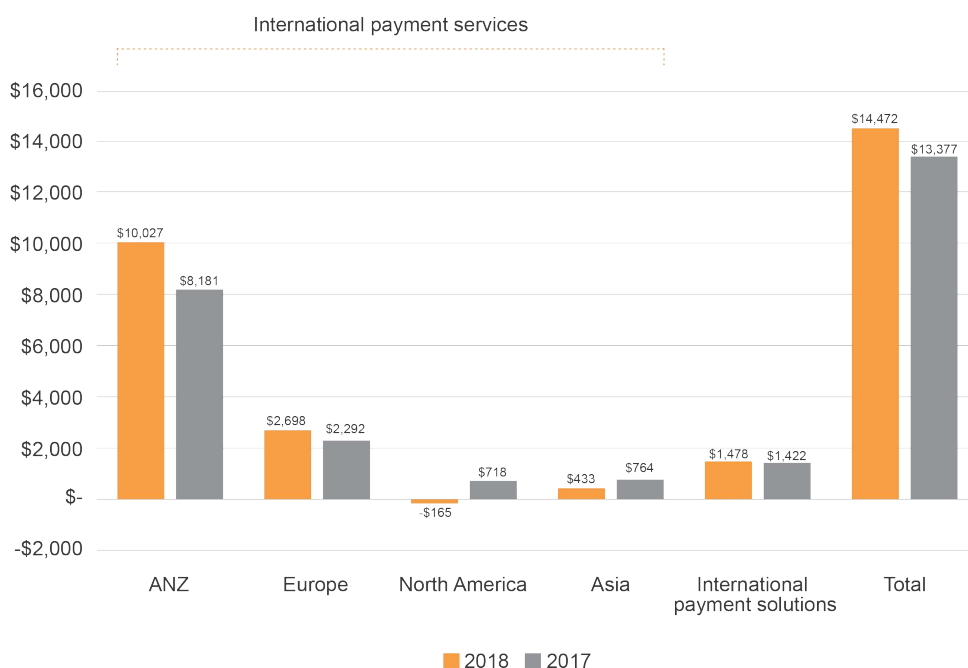

The two products are international payment services and international payment solutions:

- International payment services are monitored by geographic region (based on client location) and provide bank to bank currency transfers servicing businesses and consumers.
- International payment solutions are monitored globally and provide strategic partners with a package which includes: OFX technology platform; client service; compliance sophistication; banking relationships; and payments capabilities.

Segment fee and trading income – half year 30 September 2018 v half year 30 September 2017 (\$'000)

Segment EBITDA – half year 30 September 2018 v half year 30 September 2017 (\$'000)

Note 5. Fair values of assets and liabilities

A financial instrument's categorisation within the valuation hierarchy is based on the lowest level input that is significant to the fair value measurement:

Level	Instruments	Valuation process
Level 1 - Traded in active markets and fair value is based on recent unadjusted quoted prices.	Cash and cash equivalents, amounts due from financial institutions, client liabilities, creditors and receivables.	These instruments are held at amortised cost. Fair values are considered to approximate to their carrying amounts as they are short term in nature.
Level 2 - Not actively traded and fair value is based on valuation techniques which maximise the use of observable market prices.	Over the counter derivatives.	Foreign currency forward contract valuations are based on observable spot exchange rates and the yield curves of the respective currencies.
Level 3 – Not actively traded and fair value is based on at least one input which is not observable in the market due to illiquidity or complexity.	None – the Group does not hold any of these instruments.	Not applicable.

All derivative financial instruments held by the Group at fair value are categorised within Level 2.

Note 6. Share capital

Share capital is classified as equity and measured based on the proceeds from issuing the shares less the directly attributable incremental costs, net of tax.

There are 242,522,677 fully paid ordinary shares (2017: 240,000,000). Ordinary shares entitle the holder to vote and to receive dividends and the proceeds of the Company if it is liquidated in proportion to the number of shares held.

There are 5,739,018 (2017: 3,803,088) restricted ordinary shares issued to key management personnel in connection with the Executive Share Loan Plan.

Note 7. Dividends paid or provided for

Dividends are recognised as a liability and a reduction to retained earnings when declared. All dividends recognised in the year were fully franked (2017: all).

	Half year 30 September 2018 \$'000	Half year 30 September 2017 \$'000
Final dividend from the preceding year \$0.030 (2017: \$0.029) per share	(7,233)	(6,960)
Total dividends recognised and paid	(7,233)	(6,960)

OFX Group Limited

Note 7. Dividends paid or provided for (continued)

On 20 November 2018, the Board determined a dividend of \$0.0264 per share (\$6,402,599) as the interim dividend for 2019. This dividend was determined after 30 September 2018 and so is not reflected in this financial report. As the Company is a holding company with no trading profits, this dividend will be funded through the profits of the subsidiaries.

Ex-dividend date	27 November 2018
Record date	28 November 2018
Payment date	14 December 2018

	2018 \$'000	2017 \$'000
Franked dividends		
Franking credits available for subsequent financial years based on a tax rate of 30% (2017: 30%)	3,028	4,111

The above amounts represent the balance of the franking account as at the end of the financial period, adjusted for the franking credits that will arise from paying the current tax liability, but before taking account of the interim declared dividend for 2019.

Note 8. Events occurring after balance sheet date

Other than the above and dividends presented in Note 7, there were no material post balance sheet events occurring after the reporting date requiring disclosure in these financial statements.

Independent auditor's review report to the members of OFX Group Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of OFX Group Limited (the Company), which comprises the Consolidated Statement of Financial Position as at 30 September 2018, the Consolidated Statement of Comprehensive Income, Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the half-year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration for OFX Group Limited. The group comprises the Company and the entities it controlled during that half-year.

Directors responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the group's financial position as at 30 September 2018 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of OFX Group Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of OFX Group Limited is not in accordance with the *Corporations Act 2001* including:

- a) giving a true and fair view of the group's financial position as at 30 September 2018 and of its performance for the half-year ended on that date;
- b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.
