Singapore 5G Call for Proposal Outcome

TPG Telecom Limited (ASX:TPM) advises the market that it has been informed by the Infocomm Media Development Authority (IMDA) that TPG Telecom Pte Ltd (TPG Singapore) will not be allocated spectrum in the 3.5 GHz band in Singapore (3.5 GHz Spectrum).

The IMDA conducted a 5G Call for Proposal process under which only two 3.5 GHz Spectrum licences were to be allocated to mobile network operators in Singapore for the development of 5G networks in the nation.

The IMDA has put in place requirements for the supply of services by the successful parties to unsuccessful respondents and TPG Singapore expects to look at all options for the delivery of 5G services to TPG customers in the future.
