

AEERIS LTD

31 January 2024

Quarterly Activities Statement for the period ended 31 December 2023

Highlights:

- Cashflows from operating activities of \$952,259
- Customer receipts for the quarter were \$931,581
- Revenue and scheduled services for the period were \$901,755
- Cash and cash equivalents at 31 December of \$2.25m (no debt)

Quarterly Commentary

Aeeris Ltd (ASX:AER), Australia's leading severe weather and natural hazard risk assessment company, today reports a stable Q2 FY24 Quarterly Result and provides an overview of its quarterly activities for the quarter.

Sales & Marketing

Q2 saw continued revenue growth from new recurring and one-off revenue, made up of a combination of new customer engagements and increased receipts from existing accounts.

The Hail product suite continues to perform strongly, making up nearly 50% of total new recurring revenue. This is driven by a strong demand from the insurance and solar farm sectors.

Severe weather alerting and custom forecasting services continue to perform well. The Company has been working with several key customers to build marketing case studies and testimonials to demonstrate to the market the practical benefits of these products and services.

The Company's focus in Q3 will be converting potentially material deals in the sales pipeline. The Company will also increase sales and marketing activities around Climatics, including the imminent launch of a B2C Climatics product offering.

Climatics

Q2 was focused on new projects and the implementation of user requested features for Climatics. This delivers greater scalability and agility to meet future requirements.

During this quarter, research commenced into the forecasting of short-term risks for critical hazards and their subsets, representing a significant leap in the platform's predictive capabilities.

Operations

October started on a quiet note with dry and warm conditions across eastern and southern Australia. This resulted in severe fires across southern Queensland and northeast NSW.

In November, moisture levels increased across eastern Australia with above average rainfall setting in. The month was marked by severe and extreme storms, flooding, large hail, frequent lightning, and damaging wind, across Queensland, NSW and Victoria.

December saw the trend of severe weather continue. Particularly noteworthy events included:

- Tropical Cyclone Jasper making landfall along the north Queensland coast. Very heavy rainfall was experienced around Cairns, with some locations receiving close to 2000mm over a five-day period.
- An extended period of severe thunderstorms across southeast Queensland during the latter half of the month. Giant hail was reported around Gympie and western Brisbane and severe winds of 150-200km/hr was recorded.

December also broke a record for the highest number of hail alerts issued by the Operations team, a total of 1,178 across the month.

The Aeeris development team delivered into operations an automated system to process Fire Weather Warnings. This enhances the efficiency and productivity for the Ops team during periods of high bushfire activity.

The Company is working to finalise ISO 27001 Certification during 2024. This is expected to significantly streamline and shorten the on-boarding process of new clients.

Business Activities and Expenditures

Payments made to related parties during the quarter were directors' fees and consultancy expenses. Other abnormal expenditures include costs associated with the Annual General Meeting, additional IT resources, legal fees, ISO accreditation related fees, hazard data, marketing and conference expenses amongst other items, totalling approximately \$128,434.

This announcement has been approved and authorised for release by the Board of Aeeris Ltd.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
