Note: All Collision Repair includes Vehicle Collision Repairs and Heavy Motor segments. All figures presented are unaudited.

- Continued positive turnaround momentum as the Group heads into the historically strong fourth quarter.
- Unaudited 3Q24 pre-AASB 16 EBITDA of \$11.1 million up 128.8% from 2Q24 and up 92.4% from 3Q23.
- Guidance maintained at \$42 49 million normalised pre-AASB 16 EBITDA¹.
- Operating cash outflow of \$6.8 million, excludes \$8.3 million in delayed receipts because of public holiday processing interruptions.
- March 2024 net senior leverage covenant achieved with significant headroom.
- Projecting positive operating cash flows in FY24, including all lease payments and changes in working capital. Returning to historical trading terms is now expected to occur in FY25 once refinancing has been completed. As a result, total cash flow is now only expected to be positive for FY24 after including capital expenditure and net benefits of equity raising and debt repayment.
- Debt refinancing process progressing with several parties engaged in diligence processes. This remains on track to be finalised through 2H24.

Operational summary

- Capital SMART performed ahead of expectations and Project SHIFT completed ahead of plan.
- AMA Collision has commenced Project Wallaby, to focus on customer service and performance.
- Wales continues to deliver strong results.
- ACM Parts tracking behind expectations given continuation of compressed reclaimed margins.
- Visa processing delays have deferred the arrival of 67 international recruits.
- Proceedings against former CEO, Mr Andrew Hopkins were settled with a payment to AMA Group.
- Group LTIFR has increased to 4.03 at 31 March 2024 (up from 2.72 at 31 December 2023). Most lost time injuries continue to be minor in nature.

¹ \$89 - \$96 million normalised post-AASB 16 EBITDA.

All figures presented are unaudited.

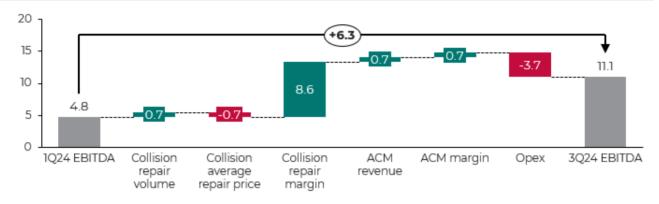

Group pre-AASB 16 EBITDA increased by \$5.4 million, 92.4% from the prior corresponding period, with a reduction in repair volumes driven by mix changes (time to repair / severity) more than offset by a higher average repair price and gross margins.

EBITDA (pre-AASB 16) – 3Q24 vs. 3Q23

AMA GROUP

Group pre-AASB 16 EBITDA increased by \$6.3 million, 128.8% from 2Q24 reflecting seasonality in earnings over the soft summer holiday season. Repair volumes and parts sales both improved, along with better labour recovery positively impacting margins.

EBITDA (pre-AASB 16) - 3Q24 vs. 2Q24

Vehicle Collision Repair (Capital SMART, AMA Collision and Specialist Businesses)

Vehicle Collision Repair continued to perform ahead of expectations in 3Q24. 3Q24 revenue was up 5.5% on 3Q23. Despite lower repair volumes, the increase in hours required for each repair was reflected in a higher average price of repair. Capital SMART outperformance more than offset challenges in AMA Collision.

Capital SMART

Capital SMART continued to deliver results ahead of expectations in 3Q24. Project SHIFT, which evolved the Capital SMART service model, has now been completed ahead of plan. This delivers annualised pre-AASB 16 EBITDA benefits of over \$20 million and more than offsets transitional support provided by Suncorp for FY24.

Three AMA Collision facilities have been converted to Capital SMART sites, as the Group aligns the network to reflect current volumes and growth opportunities. Further, one Capital SMART site has been relocated into a larger facility, and one previously hibernated AMA Collision site has been reopened as Capital SMART. Within six months this is expected to add over 3,000 of additional vehicle repair capacity on an annualised basis.

AMA Collision

AMA Collision has launched Project Wallaby to embed sustainable improved performance through exceptional customer service and operational improvements. This project is targeted to deliver over \$20 million in annualised pre-AASB 16 EBITDA benefits over the next three years.

Repair volume supply continues to increase and come from an increasingly diverse portfolio of insurers. Additionally, a structured operational performance team has been resourced.

The refit and rebrand to AMA Collision of the hibernated Craig Hall site in the Australian Capital Territory is nearing completion, with the site expected to open soon. This site is initially expected to add over 1,200 in annual vehicle repair capacity to the region and anticipated to be fully allocated.

Specialist Businesses

The Group has established a Specialist Businesses unit. This will encompass AMA Prestige, TechRight (Advanced Driver Assistance Systems (ADAS) calibration) and TrackRight (mechanical).

The establishment of the new TechRight ADAS solutions business is progressing with initial installations in various stages of implementation across the Australian network in line with plans.

Fit out of the new prestige site for Harris and Adams in Gosford has completed, and operations commenced in late 3Q24.

Wales

The Wales business unit continued to deliver strong revenues and earnings through the quarter (pre-AASB 16 EBITDA up 42.2% on 3Q23), as the business continues to experience strong work volumes and increased throughput compared to the previous corresponding period.

Expansions in Townsville and Newcastle were completed in 3Q24, with plans approved for the upgrade and expansion of capacity in Perth. These expansions are targeted to deliver \$1.5 million in annualised pre-AASB 16 EBITDA in the next two years.

ACM Parts

Reclaimed margins continue to be a headwind to profitability. Higher auction purchase prices and lower scrap commodity prices have continued to impact these margins.

ACM Parts increased the focus on its offering of collision parts outside AMA Group. This focus through a dedicated sales team delivered record external collision parts sales results over the quarter.

ACM Parts delivered record Parallel parts sales per day, representing an increase of \$45k or 35.0% over 3Q23 and year to date up 53.2% compared to the prior corresponding period.

Summary of cash position

AMA Group ended 3Q24 with a cash balance of \$23.8 million and unused available finance facilities (undrawn bank guarantees) of \$1.6 million. The cash balance excludes approximately \$8.3 million of cash receipts delayed until April given the 29 March public holiday.

An operating cash outflow of \$6.8 million was recorded for the quarter after including \$8.6 million in principal elements of leases (presented as part of financing cash flows). The operating cash flow for the quarter includes semi-annual interest payments of \$7.3 million and tax refunds of \$6.4 million, however excludes \$8.3 million in delayed receipts because of public holiday processing delays. Had cash receipts landed without public these delays, the Group would have recorded positive operating cash flow of \$1.5 million for 3Q24.

The Group spent \$3.6 million on Property, Plant, and Equipment (PP&E) during the quarter including \$0.9 million of growth capex initiatives to increase vehicle repair capacity, and \$0.1 million invested into Project SHIFT. This included \$2.6 million in maintenance capex. Make-good expenditure of approximately \$0.6 million is reflected in operating cash flows for 3Q24. The cash impact of onerous leases and exit costs on closed but not yet exited sites is \$4.7 million FY24 year-to-date and projected to be approximately \$6.7 million for the full year, with most of this cash spend not expected to continue into FY25.

Debt refinancing

The Group launched the refinancing process in November 2023 and remains confident it will be completed through 2H24, in advance of the Group's senior debt maturity in October 2024. As part of the senior debt refinancing, the Group's intent has been to provide a solution for the existing convertible bonds, which have a bondholder put date in March 2025. The Group continues to work with a range of prospective financiers who are now conducting their due diligence.

FY24 guidance

AMA Group maintains FY24 guidance range of \$42 - 49 million normalised pre-AASB 16 EBITDA, or \$89 - \$96 million normalised post-AASB 16 EBITDA.

Other than these matters there were no other material developments or material changes in business activities during 3Q24.

This announcement has been authorised by the Board of AMA Group Limited.

ENDS.
