Financial Metrics

	31 Dec 2014	31 Dec 2013	Change
Net Profit (statutory)	\$99.5m	\$56.0m	78%
Funds From Operations (FFO)	\$87.3m	\$84.5m	3%
FFO per unit	14.2c	13.8c	3%
Distributions per unit	9.55c	9.25c	3%
	31 Dec 2014	30 Jun 2014	Change
Gearing (look-through)	30.7%	32.0%	(1.3%)
Net Tangible Assets (NTA) per unit	\$3.42	\$3.35	2.1%

- > Net profit up \$99.5 million – up 78% on prior corresponding period (pcp), largely due to prior period loss on sale of Dutch Office Fund
- > FFO increased 3% to \$87.3 million
- > Position paper received from the ATO focussing on foreign exchange losses and swap contract termination costs claimed in FY09. An independent review has been requested.

Morgan Stanley's intentions for Investa Property Group

- > Investa Property Group is ultimately owned by funds controlled by Morgan Stanley Real Estate Investing (Morgan Stanley)
- > Morgan Stanley have announced they are commencing a process to sell Investa Property Group (IPG):
 - IPG comprises two business units – Investa Office and Investa Land
 - Investa Office incorporates Investa Property Trust (IPT) and Investa Office Management (IOM), the management entity that provides asset and property management to over \$8.9 billion of commercial office assets including IOF, ICPF, IPT and private mandates

Morgan Stanley's intentions for Investa Property Group

- > An Independent Board Committee (IBC), comprised solely of the independent Directors and chaired by Deborah Page (IOF independent Chairman) has been established
- > The IBC had discussions with Morgan Stanley in relation to acquiring IOM:
 - Threshold terms sought by Morgan Stanley could not provide IOF with deal certainty and was not in the best interests of unitholders
- > IOF has the following rights:
 - A right to negotiate the acquisition of 50% of IOM when IOF's Australian assets reach \$3.5bn
 - Pre-emptive over 100% of IOM should Morgan Stanley elect to sell IOM
 - Pre-emptive over Investa's 25% interest in 126 Phillip Street
- > Pre-emptive rights will only be triggered in certain circumstances
- > Any related party transaction would require unitholder approval

Affordable product attracting the strongest leasing demand

- > High quality assets with affordable accommodation <\$900psm have outperformed, with strong leasing results achieved at:
 - Piccadilly – 3,100 sqm
 - 6 O'Connell Street – 1,800 sqm
 - North Sydney – 11,300 sqm
- > Improving levels of activity in Brisbane – with 11,400 sqm of leasing agreed including:
 - 4,900 sqm at 239 George Street – 92% occupied
 - 4,000sqm at 295 Ann Street ahead of 30 June 2015
- > QR break over 4,900sqm – maintaining occupancy at 93% in FY16
- > Completed lease-up of retail at 567 Collins Street – increasing the pre-commitment level to 78%

6 O'Connell Street, Sydney

239 George Street, Brisbane

Strong valuation growth in Sydney and Melbourne

- > Valuations completed across 11 assets (60% portfolio by value), recording \$12.6 million of net uplifts above prior book values
- > Uplifts of \$58 million (+4.6%) in Sydney and Melbourne – driven by higher rents and cap rate compression
- > Valuation uplifts have been offset by declines totalling \$45 million (-8.5%) in Brisbane and Perth, where challenging leasing markets have impacted carrying values

Material valuation movements

	Valuation movement	Key Driver/s
Piccadilly Complex, Sydney	↑ \$16m (+9%)	Leased up all vacancy from acquisition
242 Exhibition Street, Melbourne	↑ \$11m (+5%)	Cap rate compression following transactional activity
126 Phillip Street, Sydney	↑ \$9m (+4%)	De-risked expiries and reduced vacancy to 3%
66 St Georges Terrace, Perth	↓ -\$12m (-13%)	Impacted by declining rents and increasing incentives
295 Ann Street, Brisbane	↓ -\$13m (-11%)	Break exercised by major tenant over 4 floors; lower rents and higher incentives adopted

Australian portfolio overview

- > Net property income increased 12% to \$95.8 million:
 - Boosted by full period contributions from Piccadilly and 6 O'Connell Street
- > Like-for-like NPI growth impacted by vacancy at 140 Creek Street, Brisbane
- > Tenant retention remains high at 75%
- > Occupancy down on pcp – but flat on 30 June 2014 at 93%
- > Average incentive 19%:
 - Excluding effective deals 26%

Key Metrics	31 Dec 2014	31 Dec 2013

Major lease expiries

- > Brisbane remains our major focus:
 - Refurbishment complete at 140 Creek Street – creating high quality and affordable A-grade product – leased first floor, gaining momentum
 - 4,000 sqm agreed at 295 Ann Street, reducing forecast vacancy from 8,500 sqm to 4,500 sqm
 - De-risked major 2,600 sqm expiry at 239 George Street – leased ahead of October 2015 expiry
- > All major vacancies and expiries re-leased in Sydney including Piccadilly and 99 Walker Street
- > Development at 151 Clarence Street - on schedule to begin construction 2H16

Continued improvements achieving favourable operating performance

- > Maintaining leadership in global environmental issues:
 - Named in top quartile of sustainable funds globally and GRESB GreenStar 2014
 - One of only 6 ASX entities on the CDP 2014 Global A-List Climate Performance Leadership Index
- > Improved average NABERS Energy ratings to 4.3 stars:
 - Boosted by Mort Street, Canberra – now 5 star NABERS Energy and Water (up from 3.5 and 4 stars)
- > Ongoing improvements across portfolio:
 - 111 Pacific Highway, North Sydney outperforming with reductions in electricity and water (↓13%) and emissions (↓17%)
 - 105 Miller Street, North Sydney electricity consumption (↓7%)

Portfolio Management

Continued portfolio transformation

**The first

Australian
office.**

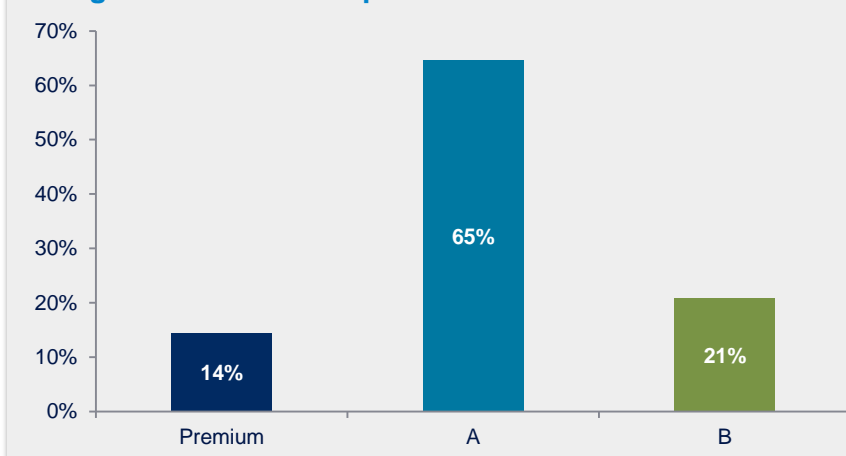

Delivered on strategy to become 100% Australian focused

- > Completing an orderly sale of offshore assets - contracts exchanged to sell Bastion Tower for €54.9 million:
 - Scheduled to complete in March 2015
- > Since taking over management in 2011, Investa has sold over \$830 million of offshore real estate
- > Improved portfolio quality by acquiring \$1.2 billion of high quality Australian assets:
 - Premium asset acquired at 126 Phillip Street, Sydney - and nearing completion of 567 Collins Street, Melbourne
 - Acquired four A-grade assets across multiple markets
 - Re-allocated B-grade exposure from Melbourne to Sydney – the market positioned to benefit most from stock withdrawals

Disciplined exit from offshore markets

Strengthened Australian portfolio²

1. Excludes Bastion Tower, Brussels

2. Includes 567 Collins Street, Melbourne at completion

The first choice in Australian office

Portfolio concentrated in major markets of Sydney and Melbourne

- > Price discipline maintained whilst upgrading the portfolio and targeting assets with high risk-adjusted returns:
 - Acquired at attractive capital values psm
 - Leasing results largely ahead of underwriting
- > Considerably increased exposure to our preferred market - Sydney:
 - Acquired assets with affordable rents and flexible floorplates
 - Well positioned to benefit from increasing tenant demand and rising rents
- > Sydney exposure to increase further through development of 151 Clarence Street

1. Includes 567 Collins Street, Melbourne at completion and excludes Bastion Tower, Brussels

Unlocking value at Piccadilly

- > Acquired in March 2014 at a 6.9% initial and 7.1% cap rate:
 - Revalued at December 2014 at \$206.3 million – a 9% upward valuation movement
- > Attracted by the location, flexible floor plate and affordable rents – and ability to add value through leasing:
 - Leveraged Investa's platform to lease 11% of the Tower – all the vacancy from acquisition
 - Successfully re-priced rents to crystallise reversion
- > Former ICAC floors being refurbished and available from March 2015 – with lease enquiry encouraging
- > Partnership with Stockland generating strong results – with the retail now 100% leased or under offer

Capital Management

Reducing costs and risks

**The first

Capital management metrics remain very strong

Long debt maturity and low debt costs

- > Lower debt and gearing following sale of 628 Bourke Street, Melbourne
- > Long weighted average debt maturity of 5.4 years and low weighted average cost of debt of 4.2%:
 - Expect FY15 average debt cost ~4%
- > Bias towards floating rates (~35% hedged) will provide interest cost tailwind into FY16

Key Indicators	31 Dec 2014	30 Jun 2014
Drawn debt	\$971m	\$1,019m

Market Outlook

**The first

Demand reflecting divergent business conditions

- > Sydney and Melbourne are reporting absorption above long run averages, as forecast by Investa's composite leading indicator:
 - Strongest annual absorption since 2011 in Sydney
 - Melbourne also improving, but lagging Sydney by 3 – 6 months
- > Stabilised demand in Brisbane following government and mining contraction cycle
- > Perth has been weaker than expected, albeit the rate of contraction is slowing

Supply outlook

- > Supply broadly in-line with long term averages in Sydney and Melbourne:
 - Medium-term Sydney supply will be significantly offset by withdrawals
- > Brisbane and Perth to remain challenging with near-term supply:
 - Brisbane impact likely to be reduced by withdrawals for government projects and increasing conversions to alternative use
 - Perth supply 70% pre-committed, largely by tenants currently in fringe markets

Source: JLL Research and Investa Research – average net supply is 20 year average calculated on a % of stock basis

Vacancy forecast to reflect divergent markets

- > Sydney vacancy likely to compress further – especially in B grade where vacancy could reduce to 5%
- > Supply threats in Melbourne to subdue rental growth
- > Withdrawals in Brisbane combined with broader demand from healthcare, education and property and business services will lessen the impact of new supply – especially in the government /mid-town precincts where vacancy is 9%
- > Perth vacancy likely to peak in 2015 at around 20%

Structural factors boosting Sydney's recovery

- > Small tenants – ~40% of the market – are underpinning recovery:
 - Led by business services, finance and insurance
- > We expect tenant relocations from fringe markets to continue
- > The impact from withdrawals has become more certain during the period – with the pipeline firming:
 - 14 assets have been acquired by residential/hotel developers for alternative use
 - Reducing options for B grade users seeking medium-term accommodation
- > Temporary withdrawals for 2 – 4 year refurbishments or redevelopments may reduce vacancy below 5%

Global hunt for yield to drive cap rates lower

- > Record low interest rates globally have intensified investor thirst for yield
- > Globally BBB corporate bonds largely traded above prime yields until ~2011, when they converged and have traded broadly in line with prime yields
- > Australian yields have lagged global yields – but are now aligning
- > Australian BBB corporate bond yields have retracted, and remain ~200bps wide of prime yields:
 - We expect this gap to close through further cap rate compression

Continuing to leverage our competitive advantage

Ongoing pro-active management

- > Dedicated focus on leasing continues to de-risk our expiry position:
 - FY15 income largely secured
- > Actively pursuing opportunities to acquire and recycle assets

Market conditions

- > Asset values to continue to rise in Sydney and Melbourne with improved leasing conditions and strong capital flows
- > Intensive management continuing in Brisbane and Perth to preserve value in challenging markets
- > Long dated cash flows on passive assets to remain highly sought-after by investors

Outlook

- > Guidance upgraded from 27.3 cpu to 27.5 cpu FFO (3.8% growth on FY14)
- > Distribution upgraded in line with FFO – increasing from 19.1 cpu to 19.25 cpu (70% of FFO)
- > Subject to prevailing market conditions

Lease expiries at risk (% total income)

Reconciliation of statutory profit to Property Council FFO

Property Council FFO for the half year is calculated as follows:	31 Dec 2014 (A\$m)	Cents per unit	31 Dec 2013 (A\$m)	Cents per unit
Statutory profit attributable to unitholders	99.5	16.2	56.0	9.1
Adjusted for:				
Net (gain)/loss on change in fair value in:				
Investments	(9.8)	(1.6)	6.5	1.1
Derivatives	(65.2)	(10.6)	(5.2)	(0.8)
Net foreign exchange loss	51.1	8.3	10.6	1.7
Amortisation of incentives	13.1	2.1	10.5	1.7
Straight lining of lease revenue	(2.6)	(0.4)	0.8	0.1
Other (primarily European exit costs, derivative termination costs and tax)	1.2	0.2	5.3	0.9
Property Council FFO¹	87.3	14.2	84.5	13.8

1. The Responsible Entity considers the non-AAS measure, Funds From Operation (FFO), an important indicator of underlying performance of IOF. To calculate FFO, net profit attributable to unitholders is adjusted to exclude unrealised gains or losses, certain non-cash items such as the amortisation of tenant incentives, fair value gains or losses on investments and other unrealised or one-off items. IOF's FFO calculation is based on Property Council of Australia definition of FFO. Refer to the Annual Financial Report for the complete definition.
