Introduction

1Q18 results overview

Summary

(A\$ millions)	1Q17	4Q17	1Q18	Change % 1Q17 v 1Q18
Gross written premium	88.2	97.7	174.1	97.4%
Net earned premium	107.9	58.8	67.4	(37.5%)
Reported net profit after tax	52.2	28.4	8.4	(83.9%)
Underlying net profit after tax	68.3	17.1	19.9	(70.9%)

Key financial measure	FY18 guidance	1Q18 actual
NEP growth	Down 25 to 30%	(37.5%)
Full year loss ratio	40 to 50%	55.9%

1Q18 result in line with expectations

- Increase in GWP includes new business written pursuant to Bermudan entity and new micro markets LMI. Bermudan transaction includes a consortium of reinsurers so only a portion of premium will flow to NEP. Net of the premium to reinsurers Genworth GWP increased 26.5% in 1Q18.
- NEP adversely impacted by 2017 Earnings Curve Review (\$32.3 million impact). Excluding this impact NEP would be down 7.6%
- Reported NPAT includes after-tax mark-to-market loss of \$11.5 million on investment portfolio
- 1Q17 underlying NPAT included \$20.8 million after tax realised gains from rebalancing of the investment portfolio
- Loss ratio impacted by lower NEP. Excluding the 2017 Earnings Curve Review impact the loss ratio would have been 37.8%
- Softening in cure rates in NSW & WA cautious outlook.

Strategic update

 Good progress in implementing initiatives pursuant to strategic program of work.

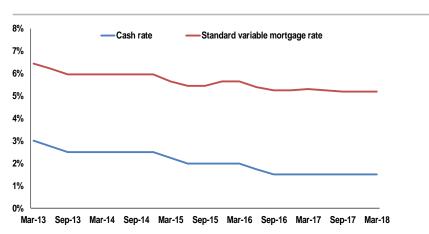

Capital management

Announced on-market share buy-back (up to value of \$100 million) subject to shareholder approval at AGM.

Note: Totals may not sum due to rounding.

NIW¹ by original LVR band and Probable Maximum Loss¹

\$ bn

NIW and Probable Maximum Loss exclude excess of loss insurance.

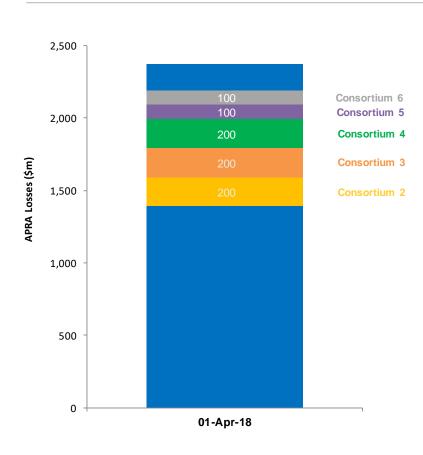

Adjusted to allow for future premium to extend reinsurance contract.

Reinsurance

2018 Renewal has improved capital efficiency

Reinsurance program as at 1 April 2018

Observations

- As at 31 March 2018, \$900 million of excess of loss cover with varying durations depending on the layer
- Well diversified panel with over 20 different reinsurers participating across the program – minimum rating of A-
- Non-renewal of \$100 million remote layer of reinsurance on 1 April 2018 due to lack of internal economic capital credit recognition and reducing Probable Maximum Loss
- Despite the reduction, our new program structure has led to an increase in internal economic capital credit
- An overall reduction in both lifetime and first year premiums and lower cost of capital.

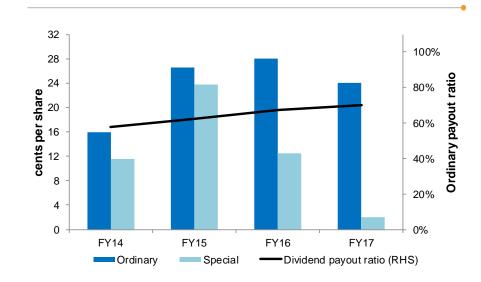

Ongoing program of capital management

Recent actions

- Since listing in 2014, Genworth has:
 - Paid out all after-tax profits by way of ordinary and special dividends to shareholders; and
 - Returned more than \$1 billion (\$2 per share) of excess capital.
- In February 2018 completed \$100 million on-market share buy-back that was commenced in 2H 2017
- Today, announced a new on-market share buy-back (up to a value of \$100 million) subject to shareholder approval at the AGM on 10 May 2018.

Genworth dividends

Summary and conclusion

2018

Genworth economic outlook and FY18 guidance

The Australian economy is expected to continue to perform relatively well in 2018 underpinned by strong infrastructure investment at a federal and state level

Housing market conditions likely to ease further in 2018 as macro-prudential measures continue to take effect and new housing supply comes onto the market

Recent data suggests strong labour market with growth in full-time jobs outpacing population growth. Expectation that this will continue in 2018

Expect Sydney and Melbourne housing markets to moderate. Continued pressure in regional markets (especially resources states) but to a lesser extent than 2017

Official cash rate likely to remain on hold due to benign wage growth and low inflation

National house price appreciation (HPA) expected to be flat in 2018

Key financial measures - FY18 guidance

Net earned premium	Down 25% to 30%
Full year loss ratio	40% to 50%
Ordinary dividend payout ratio	50% to 80%

Full year outlook is subject to market conditions and unforeseen circumstances or economic events

Conclusion

Business is well capitalised

Track record of delivering strong profits and shareholder returns

Strategic work being undertaken to redefine core business model Good progress in implementing strategic initiatives that broaden product offerings

Strategy designed
to position
Genworth as the
leading provider of
customer-focused
capital and risk
management
solutions

Unique set of competencies that can be leveraged to grow our business

Dividend payout range of 50% - 80%

Excess capital and potential uses continue to be evaluated

Committed to actively managing capital position

Well positioned to continue to deliver sustainable shareholder returns over time

Questions and supplementary slides

Genworth's strategic objectives

A refined strategic plan to re-ignite profitable growth over the medium-term

Value proposition: Innovation and technology will underpin Genworth's value proposition.

Focus: To be the leading provider of customer-focused capital and risk management solutions in residential mortgage markets and deliver sustainable shareholder returns

Stage 1: Initiatives (2017 & 2018)

1. Redefine core business model

Product enhancement

Underwriting efficiency

Leverage data and partnerships

Cost efficiency

Regulator and policy maker advocacy

Stage 2: Longer-term initiatives (2019+)

2. Leverage data and technology to add value across the mortgage value chain

Product innovation

Loss management solutions

Leverage HLVR experience and expertise

Strategic enablers

People, organisation and cultural change

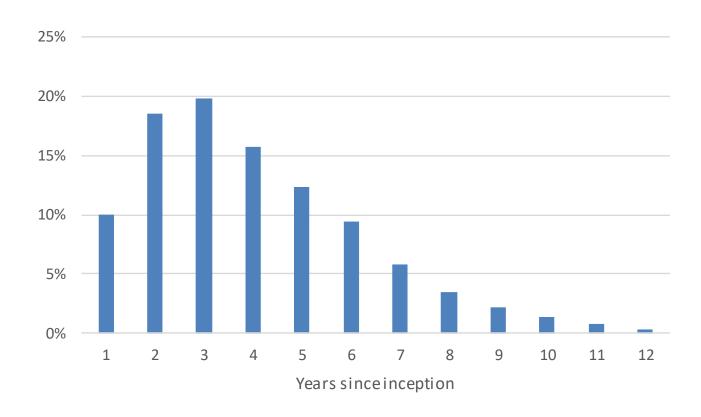

Earnings curve

Comprehensive review of premium earning pattern completed in 2H17

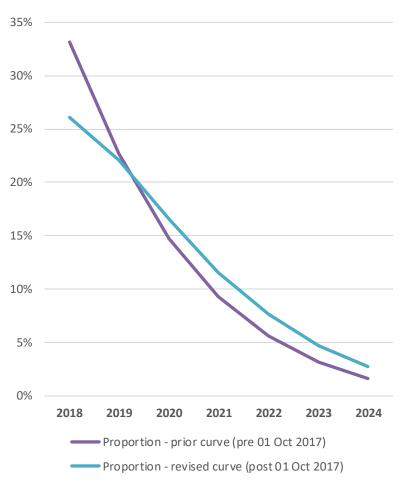

Earnings pattern for premium written post 1 October 2017

Earnings curve

Comparative in- force earning pattern for premium written pre 1 Oct 2017

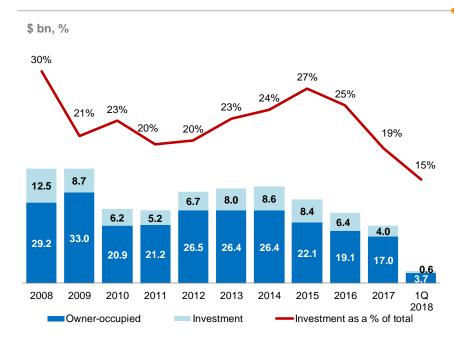

Residential mortgage lending market

Investment vs. owner-occupied (APRA statistics)¹

\$ bn, % 40% 33% 32% 127 128 136 136 109 84 81 78 258 248 235 200 191 151 2012 2013 2014 2015 2016 2017² 2008 2009 2010 -Investment as a % of total Owner-occupied Investment

 Investment property lending represented 33% of originations for the twelve months ended 31 December 2017.

Investment vs. owner-occupied² (Genworth)

 Investment property lending represented 15% of Genworth's portfolio for the three months ended 31 March 2018.

^{2.} Flow NIW only. Owner occupied includes loans for owner occupied and other types.

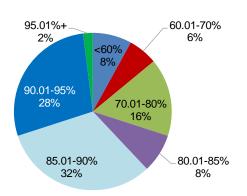

Sources: APRA Quarterly ADI property exposures statistics (ADIs new housing loan approvals), December 2017. Statistics only show ADIs mortgage portfolios above \$1 billion, thereby excluding small lenders and non-banks.

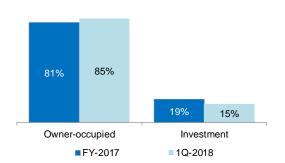

^{1.} Prior periods have been restated in line with market updates.

Insurance in force and new insurance written

Insurance in force (IIF)¹ by original LVR² band, as at 31 March 2018

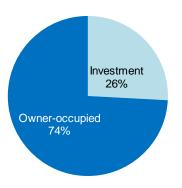

Flow NIW1 by Ioan type

IIF¹ by product type, as at 31 March 2018

IIF¹ by loan type, as at 31 March 2018

- I. NIW and IIF include capitalised premium. NIW and IIF exclude excess of loss insurance. Genworth has retained \$205m of risk in relation to excess of loss insurance.
- Original LVR excludes capitalised premium.

Insurance ratio analysis

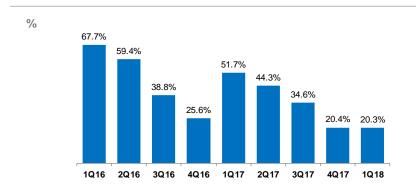

Expenses

\$ m, %

The expense ratio is calculated by dividing the sum of the acquisition costs and the other underwriting expenses by the net earned premium.

Insurance margin

The insurance margin is calculated by dividing the profit from underwriting and interest income on technical funds (including realised and unrealised gains or losses) by the net earned premium.

Combined ratio

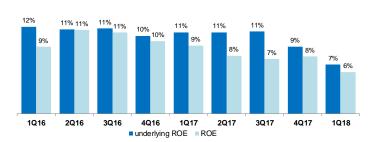

\$ m, %

The combined ratio is the sum of the loss ratio and the expense ratio.

Trailing 12-month ROE and underlying ROE

%

The trailing twelve months underlying ROE is calculated by dividing underlying NPAT of the past 12 months by the average of the opening and closing underlying equity balance for the past 12 months. The trailing twelve months ROE is calculated by dividing NPAT of the past 12 months by the average of the opening and closing equity balance for the past 12 months.

Delinquency development

Delinquency composition

Delinquencies by book year	31 Mar 17	31 Dec 17	31 Mar 18	
2008 and prior	2,955	2,660	2,767	0.38%

TOTAL	6,926	6,696	6,958	0.49%

Delinquency rate (%) is calculated as delinquencies divided by policies in force

Delinquency development

Favourable performance post 2009

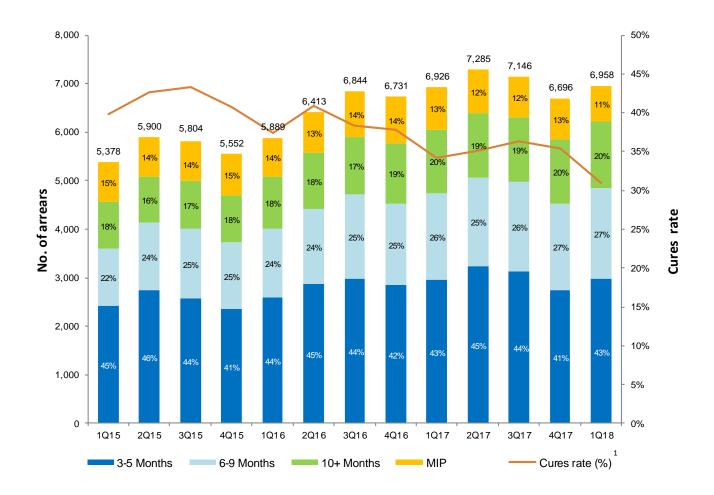

- Performance within majority of vintages remained relatively stable with the exception of 2012-14 books
- Underperformance within 2012-14 books has been predominantly driven by resources reliant states of QLD and WA following the end of the mining boom. WA and regional parts of QLD continue to experience challenging economic and housing market conditions however has seen signs of stabilising over recent months
- Historical performance of 2008 book year was affected by the economic downturn experienced across Australia and heightened stress experienced among self-employed borrowers, particularly in Queensland, which was exacerbated by the floods in 2011
- Post-GFC book years seasoning at lower levels as a result of credit tightening.

Note: graph excludes excess of loss insurance. Delinquency rate is calculated as delinquencies divided by policies written which is gross of cancelled policies.

Delinquency population

By month in arrears

Note: Totals may not sum due to rounding.

Prior quarters cures have been amended to include cures as a result of hardship assistance programs.
