About Paladin

Paladin Energy Limited (ASX: PDN) is an Australian listed uranium company focussed on maximising the value of its 75% stake in the Langer Heinrich uranium mine in Namibia.

Langer Heinrich is a globally significant, long-life operation, having already produced over 43Mlbs of U₃O₈ to date. Operations at Langer Heinrich were suspended in 2018 due to low uranium prices.

Beyond Langer Heinrich, the Company also owns a large global portfolio of uranium exploration and development assets.

Nuclear power remains a cost-effective, low carbon option for electricity generation.
