While we don't take for granted how fortunate we are to be able to trade through lockdowns, we believe COVID has accelerated the shift from offline to online that was already in progress. We remain focused on giving our customers a great experience, and hopefully having them enjoy their homes, even just a little bit more, during these tough times."

"While the start of FY22 has been difficult for many Australians, we remain focused on strengthening our customer proposition, built around having the biggest and best range of furniture and homewares, combined with inspirational content and a great customer service experience. With the new financial year starting strongly with sales up 49% on last year, it shows the strength of the Temple & Webster proposition," said Coulter.

Trading Update and Outlook

FY22 has started strongly with YoY revenue⁴ growth of 49% for the period 1st July – 27th August 2021.

We continue to experience strong tailwinds, including:

- the ongoing adoption of online shopping due to structural and demographic shifts
- an acceleration of these trends due to COVID-19
- an increase in discretionary income due to travel restrictions
- Strong housing market growth

We will continue our reinvestment strategy, investing into growth areas of the business to grow our online market leadership position with the ultimate goal of becoming the largest retailer (online and offline) for furniture and homewares in our home market.
