It does not constitute or contain an offer or invitation to subscribe for or purchase any securities nor does it constitute an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for or purchase securities will be entered into on the basis of this presentation.

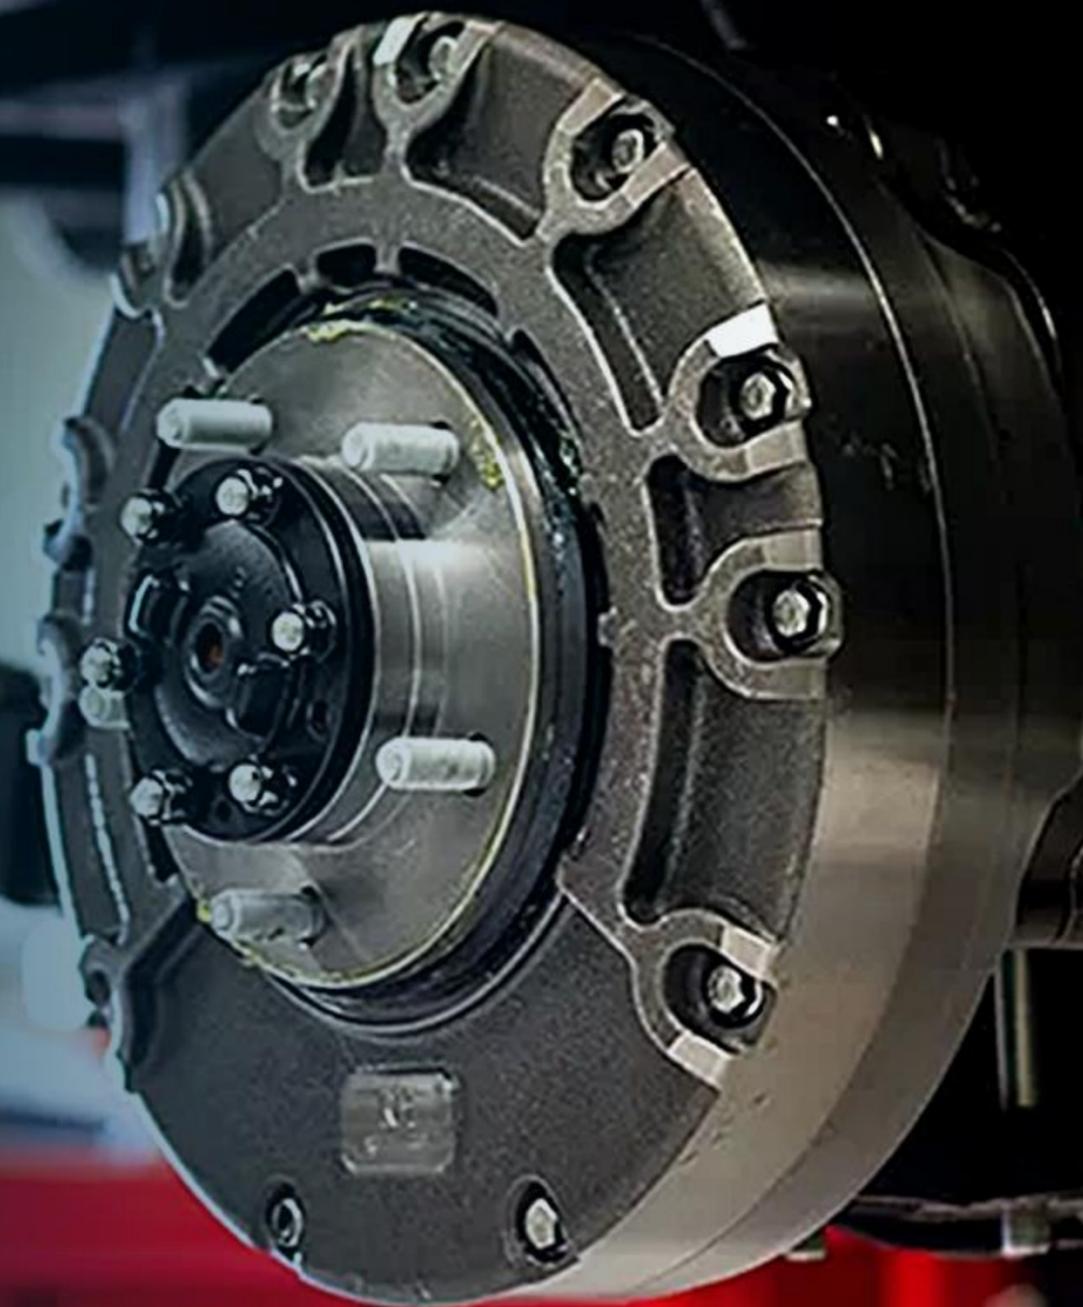

The information supplied is in summary form and does not purport to be complete. You should neither act nor refrain from acting in reliance on this presentation material. This overview does not purport to contain all information that its recipients may require in order to make an informed assessment of the prospects. You should conduct your own investigation and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation and when making any decision in relation to this presentation.

The information in this presentation does not take into account the objectives, financial situations or needs of any particular individual. You should consider seeking independent professional advice based on your own objectives.

All statements, other than statements of historical fact, included in this presentation are forward-looking statements. They involve subjective judgement, assumptions and analysis and are subject to significant risks, uncertainties and other factors. Accordingly, there can be no assurance that such statements or expectations will prove to be accurate and actual results and future events may differ materially from those anticipated or described in this presentation. Historic information is not an indication or representation of the future.

To the extent permitted by law, Advanced Braking Technology Ltd and its representative officers, employees, agents and advisers give no warranty, representation or guarantee as to the accuracy, completeness or reliability of the information contained in this presentation. Further, none of Advanced Braking Technology Ltd and its respective officers, employees, agents and advisers accept, to the extent permitted by law, responsibility for any loss, claim, damages, costs, or expenses arising out of, or in connection with, the information contained in this presentation.

About ABT

WHY ABT?

Improving the safety and the efficiency of operations.

Unintended Vehicle Movement

Brake Fade / Brake Failure

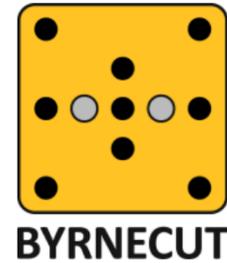

Durability

Environment

Our Customers

Valuable Bluechip Partners

What Makes ABT Unique?

- All the inbuilt safety systems (conforming to Best Practice Regulations) that are standard in "YELLOW" fleet applied to Road Vehicle fleet.

- >20 years original manufacturer of sealed wet brake technology.
- Australia is a World Leader in Mine Safety.

ABT Exports Brakes to 7 Continents:

From Finland in the North to Antarctica in the South....
We've got you covered.

40%

of revenue from overseas locations including:

- North America
- Europe
- Asia-Pacific
- South Africa
- South America
- Antarctica

60%

of the Australian Market

Sealed Integrated Braking System (SIBS)

What is SIBS?

Failsafe

Hydraulic Release/
Spring Actuated
Energy On = Brake Off
Energy Off = Brake On
When all else Fails..... the brake
engages

Wet Brake

Fluid Based Wet Disk Brake
Provides optimal thermal
performance where overheating
and brake fade is common

100% Sealed

Keeps external contaminants
OUT
Keeps Harmful Brake Dust
Particulates
IN

Highlights of Financial Year 2023

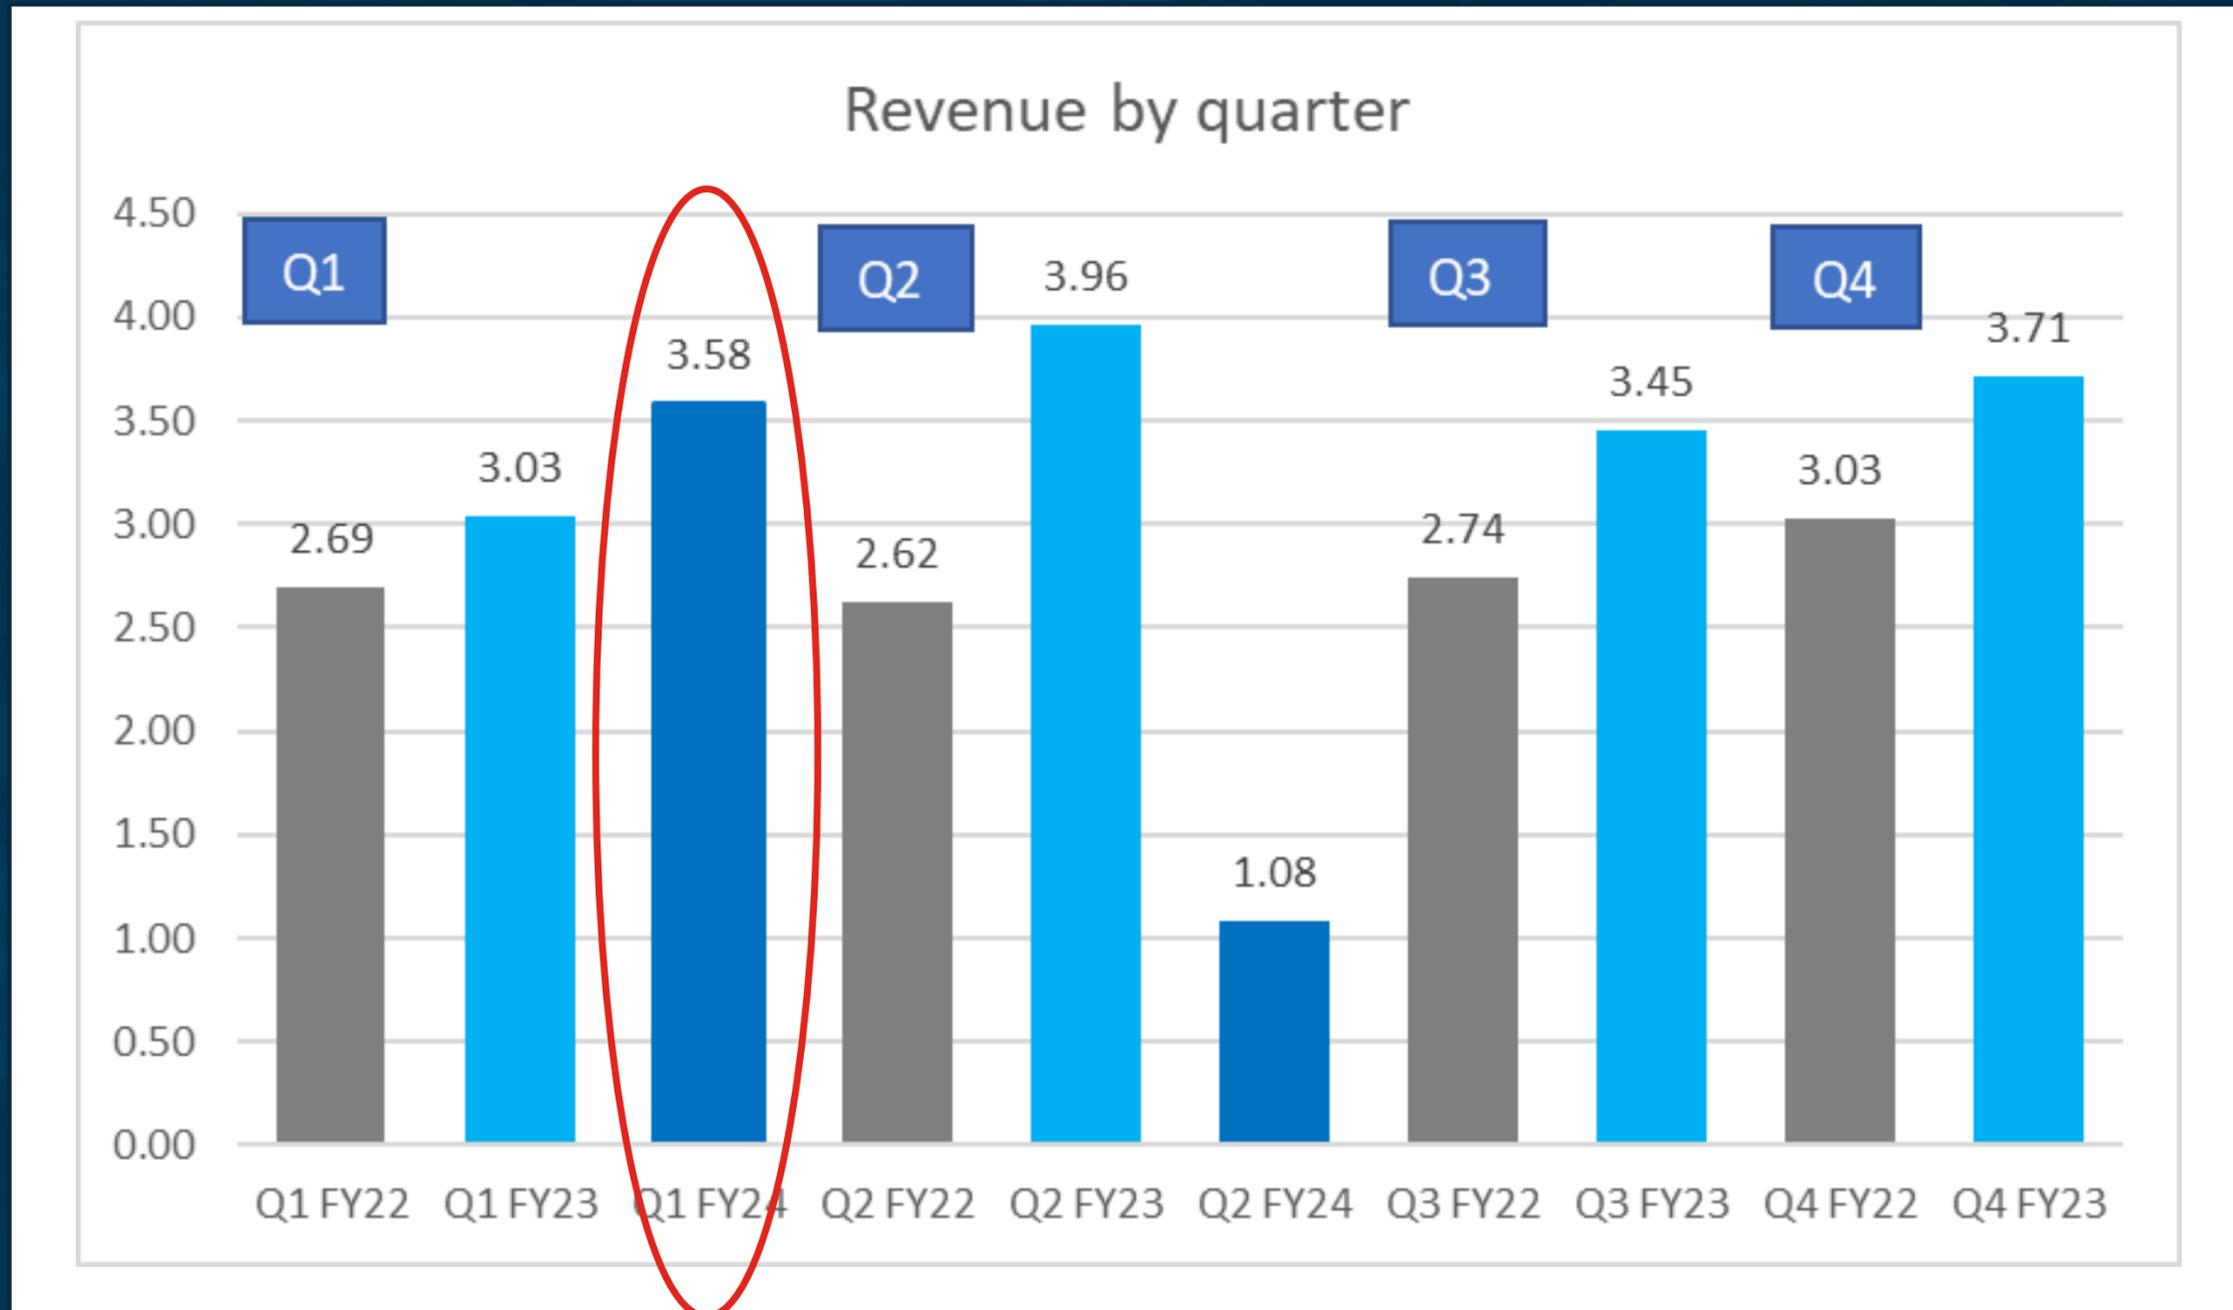

Progress on our Strategic Roadmap

- **Drive Mining Market Penetration**
of Failsafe SIBS across our Global Bluechip Customer Base
- **Diversify SIBS applications**
across a broader range of Vehicle Types
- **Position ABT to take advantage of Automotive megatrends**
(Autonomous/Electric/Connected)
- **Safety and Environment**
remain core to how we do business
- **Investing in our people**
through training and development
- **Focusing on initiatives**
to enhance innovation and revenue diversification

FY23 Full Year Highlights Include

Summary Financial Results	FY23	FY22	Change
Revenue from ordinary activities	\$14.69m	\$11.74m	25.1%
Revenue from continuing operations	\$14.15m	\$11.1m	27.9%
Product Margin	49.9%	43.9%	5.97%
Total expenses	\$6.17m	\$4.93m	25.1%
EBITDA	\$1.5m	\$0.7m	82.6%
Net profit after tax	\$1.47m	\$0.64m	129%
Cash and cash equivalents	\$2.05m	\$1.74m	17.8%

Strong Start to FY24 Revenue

ABT Growth Strategy

Demand For Underground Mining

The International Energy Agency estimates the demand for minerals used for electric vehicles and battery storage will grow tenfold by 2040.¹

This market dynamic is boosting continued and unprecedented investment and growth in underground and other mining formats.

Since the global pandemic, the industry has seen an accelerated focus on Environment, Social and Governance (ESG) in the form of safety, compliance and technology driven environmental solutioning as a key driver for innovation.

¹. International Energy Agency: The Role of Critical Minerals In Clean Energy Transitions.

SIBS Failsafe Braking for Electric

Proportion of emissions emitted by a diesel vehicle.

SIBS = 100% Sealed Brakes can reduce vehicle related greenhouse gas emissions by up to 25%.

The adoption of electric vehicles is likely to continue to grow as technology advances and regulatory pressure to reduce emissions increases.

What About Autonomous?

While fully autonomous technology is still years – or even decades – away from Australian roads,

It's already here and part of mining sites of the future.

Autonomous Ford Ranger developed by Australian mining company - Drive

20 Year Evolution of SIBS | SIBS – Sealed Integrated Braking System

Toyota Land Cruiser
70 Series | Toyota
Hilux

Isuzu NPS

IVECO 8x4

Volvo 8x4
FMX

SIBS Brake Innovation has evolved from light commercial 4x4 vehicles to light medium and heavy trucks.

ABT solutioning for Road Trucks for Mine Haulage

Advantages of Conventional Road Trucks

- Cost – Operating Costs
- Speed – Power to Weight Ratio
- Capital Cost
- Future Electrification and Automation.
- Mine spec / Ruggedising Conventional Road Trucks
- Emergency Braking System (Failsafe Secondary System)

Rio Tinto turns to mining mosquito fleet

Rio Tinto turns to mining mosquito fleet

- Australian Mining

ABT Solutioning for Road Trucks for Mine Haulage

Road Truck Mine Spec (ruggedised)

- ✓ Sealed Wet Disk Brakes
- ✓ 60T GVM
- ✓ Failsafe Brake System
- ✓ CAPEX
- ✓ Serv/Maint Downtime
- ✓ Running Cost

Yellow

- ✓ Sealed Wet Disk Brakes
- ✓ 60T GVM
- ✓ Failsafe Brake System
- ✗ CAPEX
- ✓ Serv/Maint Downtime
- ✗ Running Cost

Executive Management Team

Andrew Booth

Chief Executive Officer

More than 15 years Strategic Leadership in Australia and Asia in both Corporates and Multinational Co's. Experience spans International Business Operations, Transforming Organisational Culture, Business Turnaround, Business Development, Risk, Governance and Financial Management.

Angela Godbeer

Chief Financial Officer

Significant experience in ASX listed manufacturing environments with a successful track record within well-regarded organisations, some of which have undergone significant transformation aligned to strategic objectives.

Ben Weetman

Sales and Marketing Director

Ben offers extensive Mining and Mining equipment, technology and services (METS) experience both in Australia and Internationally.

David Newcombe

Engineering & Operations Director

20 Years experience in global engineering design, product feasibility, tendering and commercialisation, who is skilled at identifying strategic opportunities, championing new business initiatives with General Motors and other Automotive OEMs

Conclusion

- Financial Strength
- IP Using SIBs Design
- ABT Team
- Scalability
- Sustainable Profitability
- Blue Chip Customer Base
- International Market Growth
- Strong supportive Key Investors/Shareholders
