

ASX Announcement

21 March 2024

Response to market speculation

Aussie Broadband Limited (ASX:ABB, **ABB**) has become aware of market speculation and questions raised directly with us, that, at the time ABB purchased a 19.9% stake in Superloop Limited on 26 February 2024, it was aware that it had lost, or would shortly lose, its White Label Agreement (**Agreement**) with Origin Energy Retail Limited (**Origin**).

ABB categorically denies this speculation. As ABB stated in its previous announcement on 14 March 2024 relating to the termination of the Agreement, the notice received from Origin was unexpected. In fact, ABB was engaged in negotiations with Origin towards the renewal of the Agreement right up to the time the termination notice was received by ABB.

ABB takes seriously its compliance with law, including its continuous disclosure obligations. ABB notified the market as soon as it became aware of Origin's intentions. Any suggestion to the contrary is, simply, false.

About Aussie Broadband Limited

Aussie Broadband is an Australian operated telecommunications and technology company that formed in 2008 in Morwell, Victoria.

The Company provides a broad range of solutions to residential, business, enterprise and government customers, and provides wholesale services to other telecommunications companies and managed service providers.

The Company is the 5th largest provider of broadband services in Australia and is one of only five tier 1 voice providers in Australia.

Aussie Broadband is focused on building market share in the business, enterprise & government and wholesale segments through its range of data, voice, cloud and managed solutions, whilst continuing to build share in the residential segment.
